STATS:

- Over the past decade, the Hispanic high school dropout rate has dropped dramatically. Hispanic dropout rate (12%) remains higher than that of blacks (7%), whites (5%) and Asians (1%).
- Hispanics still lag other groups in obtaining a four-year degree. As of 2014, among Hispanics ages 25 to 29, just 15% of Hispanics have a bachelor's degree or higher.
- Black and Hispanic students in particular remain underrepresented in graduate schools, especially in science, technology, engineering and math. About 11 percent of graduate students were Hispanic in the fall of 2017.

College completion by race and ethnicity

% ages 25-29 with a bachelor's degree or more, 2014

Note: Whites, blacks and Asians include only non-Hispanics. Hispanics are of any race.
