POSITIVITY PROJECT	CAMPUS HIGHLIGHTS	DETENTION & RESPONSIBILITY ROOM
<b>LOVE OF LEARNING</b>  Those with a love of learning are intrinsically motivated and engaged in a topic regardless of achieving an external standard. They enjoy learning simply for the sake of learning. They don't need a prize of a high grade as a reward. Their reward is the process of doing the work and improving.  Developing a love of learning is highly beneficial for an individual. It means that they are intrinsically motivated to deepen their existing skills and abilities, or learn something completely new. Since intrinsically motivated action is correlated with positive emotions, those who act on their love of learning may also have enhanced mental and physical health. Additionally, individuals who love learning have the desire and ability to overcome challenges, due to a sense of autonomy and control over their environment.  <i>The Positivity Project, 2022</i>	<b>BLACK HISTORY HERITAGE MONTH</b> <b>“Bessie Coleman”</b>  Bessie Coleman became an aviator at the age of 27. She was determined to fly an airplane one day. She was denied from flight schools in the U.S. because she was a Black American woman in the 1900's. Still determined to become a pilot, she pushed harder to learn French and then left to Paris, France to pursue her dream. In 1921, she became the first African American woman to earn a pilot's license as well as the first African American aviator to hold onto an international's pilot's license. When she returned to the U.S., she made the first public flight by a Black woman in the United States on September 2, 1922. <i>(Today.com, Updated Jan. 26, 2024)</i>  	<b>RESPONSIBILITY ROOM:</b> GRADES 1-3: MONDAY-THURSDAY (LUNCH RECESS) GRADES 4-6: MONDAY-THURSDAY (LUNCH RECESS)  <b>AFTER SCHOOL DETENTION:</b> ALL GRADES: MONDAY, TUESDAY, AND THURSDAY 2:30 PM-3:30 PM  <b>FOLLOW SIERRA VISTA ELEMENTARY:</b>  Sierra Vista Elementary  @sierravista_cusd  sierravista.cusd.com
