EMPLOYEES OF DISTINCTION

SEPTEMBER, 2018

MARY ALLEN

"She's here in the morning for us; she teaches all day; she's here for our Robotics team; she's here for our clubs. She's always doing something for us. She never stops!" Mary's students say it best when asked to share about Mary. Because of Mary's vision, passion, and energy for students and technology, she is always looking for ways to engage students in learning. For example, Clovis North students have been engaged in designing a part for the International Space Station through the NASA Let Your Invention Fly Challenge, and Mary will be taking six teams of Clovis North students to Fresno State on Saturday to compete to have their invention used on the International Space Station. Thank you for your commitment to our students!"

MARIELA FREGOSO

"Mariela is an employee of distinction! She does an amazing job every day keeping our campus safe. Mariela makes connections with students and goes above and beyond by taking initiative and taking action in order to support a safe learning environment on our campus. Mariela jumps in and helps with any task and is quick to respond to safety concerns. She truly cares about every student and adult at CNEC."

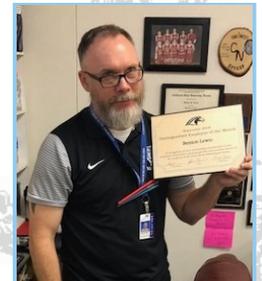

JOHN JONES

"We are very appreciative of John's flexibility in teaching PE on both the GR and CN side of the campus. He saw a need and filled it. He exhibits what we talk about when we talk about the Code of the North, "Do what has be done" and "Take care of one another"."

BENTON LEWIS

"Benton has exemplified our theme 'Better Together' this year. He has gone above and beyond supporting the English Department with online testing. He has taken time to help set up testing, administer and pull data reports. He has even volunteered his time to run make up test sessions in his room for ninth and tenth grade. We appreciate his hard work and dedication to our student and staff. He is a true team player!"

ANGELA MARSHALL

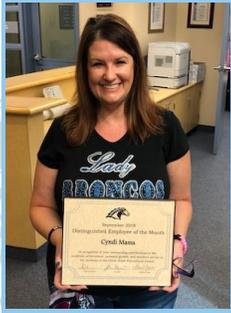

"We are truly fortunate to have Angela Marshall on the CNEC Campus. "Every day and every way" she goes above and beyond for students that are facing hardships and struggles in their daily lives. She is an active listener who understands that every student comes with unique challenges and diverse needs. Simply said, "She just gets kids". Thank you Angela for supporting our students through thick and thin. You are truly an Employee of Distinction!"

EMPLOYEES OF DISTINCTION

SEPTEMBER, 2018

CYNDI MASSA

"For the last few weeks, Cyndi Massa and Sam Nixon, who serve as our 7th-12th grade registrars, have had constant enrollment of new students. During their meeting with the student and family, they welcome them and enroll them to CNEC, but most importantly they want to make sure the student's transition to CNEC is a good experience. They will contact the Transition Team to help a student make an immediate support connection, make sure that coaches know if a new student has a passion for a sport and let the Peer Counseling teachers know when new students enroll as another added level of support for our new Broncos. Enrolling into a new school is difficult for kids and Cyndi and Sam's job is to enroll students, but doing that with caring, kindness, compassion and the mindset of doing "what is best for kids" makes them Employees of Distinction!"

SAM NIXON

"For the last few weeks, Cyndi Massa and Sam Nixon, who serve as our 7th-12th grade registrars, have had constant enrollment of new students. During their meeting with the student and family, they welcome them and enroll them to CNEC, but most importantly they want to make sure the student's transition to CNEC is a good experience. They will contact the Transition Team to help a student make an immediate support connection, make sure that coaches know if a new student has a passion for a sport and let the Peer Counseling teachers know when new students enroll as another added level of support for our new Broncos. Enrolling into a new school is difficult for kids and Cyndi and Sam's job is to enroll students, but doing that with caring, kindness, compassion and the mindset of doing "what is best for kids" makes them Employees of Distinction!"

JOSH OLSON

"Josh Olson is an amazing chemistry teacher, mentor and dept. chair. As a teacher Josh shows students how to investigate the world through critical thinking and fun labs. As a mentor he has nurtured the careers of younger teachers through induction, BTSA and by sharing his experience and wisdom freely. As a dept. chair he has helped teachers and students in science fair, science bowl, science Olympiad and robotics compete at the national/international level. Josh is fantastic!"

TANNER SNEED

"We are very appreciative of Tanner's flexibility in teaching PE on both the GR and CN side of the campus. He saw a need and filled it. He exhibits what we talk about when we talk about the Code of the North, "Do what has be done" and "Take care of one another"."
