

Your teacher is using **Google Classroom!**

Students:

If you're not already connected to your teacher's Google Classroom, ask your teacher for the class code and join TODAY!

What is Google Classroom?

Google Classroom is an online system that is designed to boost the learning experience in the physical classroom through the systems developed by Google. Google Classroom is part of the Google Apps for Education suite which looks to develop a paperless environment in the classroom.

What are the benefits?

For students, Google Classroom provides them access to the learning materials and the assignments prepared by their teacher. It also provides a platform for them to communicate to their teacher or to the class even outside the classroom. Interconnectivity with Google Docs and Drive makes it easy for students to submit their assignments with rich media included.

Are parents given access to a teacher's Google Classroom?

In general, parents are not given access to a teacher's online classroom. Although, parents may view a teacher's Google Classroom with access from their student.
