CLOVIS NORTH EDUCATIONAL CENTER IDAC MEETING MINUTES

Location: Lecture Hall/Zoom

Date: Monday, January 22, 2024

Time: 5:30pm

Welcome, Introductions & Purpose

Dr. Shapiro welcomed all attendees to the meeting.

Diversity Council

CNEC's Diversity Council includes 7th-12th grade students and was created to support diversity and culture on campus. Two student members of CNEC's Diversity Council were at the meeting and shared their experience. This year our Diversity Council led CNEC's Unity Week celebration. The goal was to help students feel comfortable with their own ethnicity and culture, as well as learn more about other ethnicities and cultures. Inspire was CNEC's first cultural showcase. This was another great opportunity for students to celebrate and learn about diversity on our campus. CNEC would like to grow our Diversity Council with students that are passionate about making a difference on campus.

CTE Pathway Discussion

Learning Director, Katie Aiello spoke at the meeting regarding CUSD's CTE and AP pathways. CUSD currently has 21 different CTE pathways. These pathways prepare students for future career opportunities, giving them valuable hands-on learning opportunities. CUSD has 3,000 students involved in CTE.

CUSD will hold its CTE Night at the Clovis Veterans Memorial District on January 23rd at 6:00pm.

AP Pathway Discussion

Currently there are 22 different AP courses that are offered to students. There are 880 students registered to take AP exams. Clovis North is the highest AP school in the district, with 85% of our students passing their AP exams with a score of 3 or higher.

Seal of Biliteracy Award

Deputy Principal, Jon Bowns shared information regarding changes the state has made to the Seal of Biliteracy Award.

To earn this award a student must first demonstrate proficiency in English, as well as two or more foreign languages.

The recent change made by the state allows a school to administer an exam to a student, allowing the student an opportunity to demonstrate proficiency in a foreign language that is not offered at the school.

Site Feedback

Principal, Dr. Shapiro shared information regarding the upcoming CUSD boundary change. Due to the new Terry P. Bradley Educational Center, there will need to be some boundary changes.

The Clovis North Area Boundary Change Meeting will be held on Thursday, February 8th at 5:30pm in the CN MPR.

Dr. Shapiro also communicated information regarding our testing schedule. CNEC is trying to strategically plan the testing schedule, keeping in mind many students will be taking multiple tests including AP tests.

Questions

Dr. Shapiro gave parents an opportunity to ask questions.

The meeting was adjourned at 6:32pm
